WASH HANDS AND EXPOSED SKIN before meals and after work.
WASH CONCENTRATE from skin or eyes immediately.

Environmental protection:
Do not contaminate water with the product or its container (Do not clean application equipment near surface water / Avoid contamination via drains from farmyards and roads)

All crops:
− Dangerous to bees.
− Do not use where bees are actively foraging.
− Do not apply when flowering weeds are present.
− Remove weeds before flowering.

Potatoes:
− To protect bees and other pollinating insects do not apply to crop plants when in flower.
− Do not apply later than 6 days before onset of flowering of crop plants.

Storage and disposal:
KEEP AWAY FROM FOOD, DRINK AND ANIMAL FEEDING STUFF.
WASH OUT CONTAINER THOROUGHLY, empty washings into the spray tank and dispose of safely.
DO NOT RE-USE CONTAINER for any purpose.

Closer®
Product Identifier according to Art.18 of Reg. (EC) No 1272/2008 [CLP]:

CLOSER
Toxic to aquatic life with long lasting effects.
Collect Spillage
Dispose of contents/container to a licensed hazardous-waste disposal contractor or collection site except for empty clean triple rinsed containers which can be disposed of as non-hazardous waste.

Contain 1,2 benzisothiasolin-3-one.
May produce an allergic reaction
To avoid risks to human health and the environment, comply with the instructions for use.

PCS No. 05341

A suspension concentrate containing 120 g/litre (11.3% w/w) sulfoxaflor.
A selective insecticide (IRAC Group 4C) for use in POTATOES, BRASSICA VEGETABLES and LEAFY VEGETABLES for the control of aphid species.

Triple Rinse Containers, Puncture and Invert to Dry at time of Use

PROFESSIONAL USE ONLY

REGISTERED FROM FROST

DIRECTIONS FOR USE

Before use, obtain the most recent version of the label for the product being used. Always read and follow the instructions on the label. Use product only as directed. Always refer to the product label for the latest information. Contact the producer before using on crops for processing.

LETTUCE (field), Cabbage, Brussels sprout, Broccoli (field), Potatoes (seed crops but not limited to the following:

- Chinese cabbage, lettuce and spinach
- Outdoor broccoli, Brussels sprout, cabbage, clover

CLOSER acts on the insect nicotinic-Acetylcholine site at a dose level that will destroy damage to leafy vegetable crops. It is mobile in the vascular system of the plant. Following entry to the insect by feeding on leaves, CLOSER is a xylem mobile systemic insecticide with translaminar activity. It is recommended to apply individually at a rate of 200 ml/ha to control aphids and mites. If the label indicates that the insecticide is recommended for controlling aphids and mites in crops other than lettuce and potatoes, use this recommended concentration. CLOSER is a liquid detergent immediately after use. Spray out. Fill with water and masticate the product.

Wash spray tank and equipment thoroughly with water and masticate with the product. Alternatively, use 0.5% solution for application of sulfoxaflor is two per year, which is recommended to apply sulfoxaflor either 1-2 weeks before harvest. Application of sulfoxaflor at a rate of 0.5% of 100 ml/ha is adequate for control of aphid and mite control. Avoid using the same insecticide 2-3 times in a row and rotate with other insecticides to reduce the risk of resistance. The maximum number of applications of sulfoxaflor on lettuce and potatoes in the same season is 2. In the case of sulfoxaflor, the maximum number of applications of sulfoxaflor on the same generation is 2. CLOSER is a liquid detergent immediately after use. Spray out. Fill with water and masticate the product.

Rinse out the equipment with water and masticate with the product. Alternatively, use 0.5% solution for application of sulfoxaflor is two per year, which is recommended to apply sulfoxaflor either 1-2 weeks before harvest. Application of sulfoxaflor at a rate of 0.5% of 100 ml/ha is adequate for control of aphid and mite control. Avoid using the same insecticide 2-3 times in a row and rotate with other insecticides to reduce the risk of resistance. The maximum number of applications of sulfoxaflor on the same generation is 2. CLOSER is a liquid detergent immediately after use. Spray out. Fill with water and masticate the product.

NOTE:

Do not spray the product close to live bees and when bees are actively visiting the area to be treated. Applications should be made during periods of least activity, e.g. before dawn or late in the evening. Do not apply CLOSER in a manner that is inconsistent with the label may render this product ineffective. To obtain safe and successful use of this product, please read carefully all instructions within this section.
