

NMP Online User Update

ACTION REQUIRED

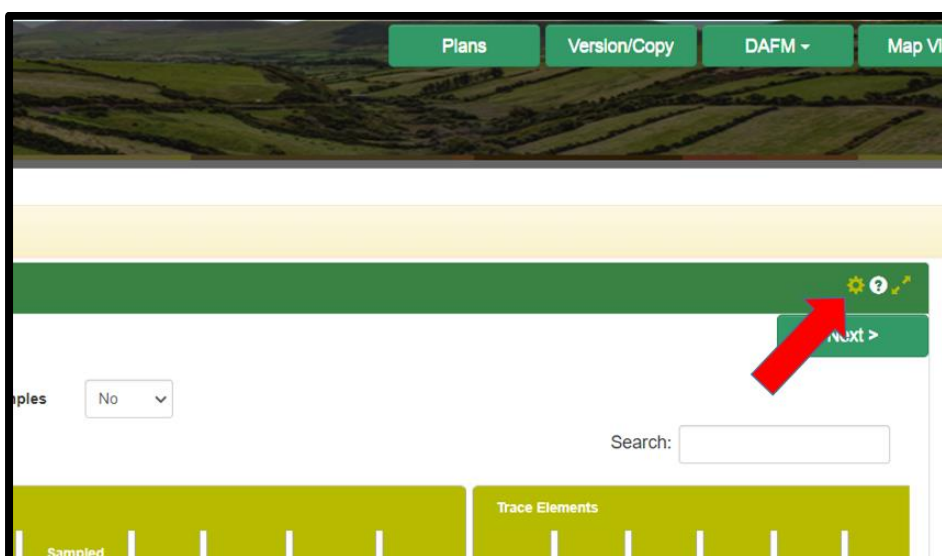

For users who are consulting plans created before the updates deployed on the 18-10-2023 with a plan year of 2023 or more recent, note that action is required in plan settings. Without these actions, your plan will contain inaccuracy.

This relates to all plan types. Reports will be locked down until this action is taken. However you can still consult the various pages of the plan. Therefore we recommend that you take the following steps each time you open a plan that as stated above was created before the updates deployed on the 18-10-2023 with a plan year of 2023 or more recent i.e. 2024 upwards.

You can see below that reports are locked down.

Please go to plan settings.

This will open on the “General Settings” page. As per below please select from the dropdown “Derogation Applied for in Current Year”. You will also note that you cannot close this modal until a selection is made.

Plan Settings

General Settings | Optional Settings | Units | SFP Settings

Herd Number: G2341068

County: Galway

Derogation Applied for in Current Year: [Empty Dropdown]

Plan Type: Derogation

Plan Safety: No

Use Historic Grassland Stocking Rate: Yes

Insert GSR/ha from previous year: 200

Previous years Net WFSR/ha (excl Imports and Exports): 200

Grazing Platform SR (kg N/ha): [Empty]

Close

As per NMP Online Bulletin 26 you will also notice this action needs to be taken when creating a copy. You will also need to populate the previous years GSR and Net WFSR.

Warning! The following fields must be completed to proceed: Derogation Applied for in Current Year, Previous Years GSR, Previous Years WFSR.
