Converting to dairy involves a major commitment and sizeable capital outlay...

You need to be sure you are making the right decisions!

Dairy Start-Up Course 2019

Request a Callback
www.teagasc.ie/dairystartup
This Dairy Start-Up Course has been designed to help you decide whether dairy farming is right for you, while also establishing what the likely costs and returns from dairy farming would be on your farm. The course is practical and interesting, mixing both the principles for successful dairying with the practical skills required for the start-up process.

**Course Content**
- Cost of conversion
- Expected costs and returns
- Farmyard design
- Grazing infrastructure
- Reseeding
- Animal breeding
- Animal health & biosecurity
- Milking machine design & wash routine
- Milking routine
- Milk quality

**Course Benefits**
On successful completion of this course, participants will have gained valuable knowledge and skills to assist with the establishment of a successful dairy farm. This course is a must for all farmers who are considering converting to dairy farming and existing farmers who want to upskill themselves on how to improve farm profitability and lifestyle.

**Course Days & Fees**
There will be 4 training days in 2019 and 10 discussion group meetings in 2020. Cost is €750 per participant (€600 for Teagasc clients)
